

GAME GUIDE

Your chance to
WIN \$1 MILLION
every three minutes

ABOUT THE GAME

NT Keno is an easy numbers game.

In each NT Keno game, 20 numbers are drawn from a total of 80. You can choose from 1 - 10, 15, 20 or 40 numbers per game. Play a game for a minimum \$1, no matter how many numbers you choose. Match your numbers for your chance to win.

With draws every 3 minutes NT Keno offers a range of bets and prizes.

Choose your own numbers or try your luck with a Quickpick. Wins are based on how many numbers on your ticket match those in the game draw.

JACKPOT GAMES

NT Keno Jackpots (6, 7, 8, 9, 10 spots) continue to grow until they are won. If there is more than one winner, the jackpot is shared. View the latest Jackpot Values on the Keno Displays or ask your Keno Operator for a print out.
